

Whakatane Sportfishing Club repositioning

Time is nearly here for the Whakatane Sportfishing club to make the move.

Over the last 24 months your Whakatane Sportfishing club crew have been working through the minefield of compliance and engineering requirements needed to ensure our fantastic club facilities are repositioned safely to ensure the club continues to be a community hub for generations to come.

Check out the images of what the final result will look like, it is stunning, we should all be very proud of what the future holds for this very special part of Whakatane.

THIS IMAGE IS A RENDERING AND NOT A PHOTOGRAPH. IT IS NOT A REPRESENTATION OF THE FINAL DESIGN. THE FINAL DESIGN IS SUBJECT TO THE APPROVAL OF THE LOCAL COUNCIL AND THE DEPARTMENT OF BUILDINGS. THE IMAGE IS NOT INTENDED TO REPRESENT ANY SPECIFIC DESIGN OR PRODUCT. IT IS MERELY FOR INFORMATIONAL PURPOSES.

Then view from Muriwai drive shows the disabled and stair access to the front door of the club.

The building was originally very well designed and will become a focal point for the Whakatane community with excellent access to the facilities and views of the Awa and commercial wharf that are unsurpassed in Whakatane.

Looking at the club from the river side shows how the club will have access to the wharf through an integrated terraced area, new decks and balustrades are incorporated in the clubs new location providing a further 140 seats allowing the club to provide more opportunities for larger events.

A stunning piece of Whakatane, our community based ethos ensures we provide services to the entire community, while we are a club and our members enjoy fantastic benefits, our facilities are available to the community to utilise, come and have a chat to our team and see

how we can help with your next function or event, especially if you are also a community group we would love to have a chat about how we can provide services to you.

We still get asked regularly where we are repositioning to, the picture below shows how the building will be situated once the move is completed.

The physical move will be completed in one piece, the building will be raised, transported and placed on the new foundations by specialists, you will probably be able to spot a couple of Television cameras around during the process, this will be one of the biggest and more complex building moves undertaken in New Zealand in recent years so all eyes are on us!
